720 W. 1st St.
Coffeyville, Kansas 67337

Dear Stephanie:

Congratulations to you and your staff on your September 2011 survey from the Kansas Department on Aging. In an effort to recognize outstanding performances such as yours, the Kansas Adult Care Executives Association (KACE) would like to personally congratulate you on a job well done.

KACE is a professional organization consisting of Administrators and Executives in long-term care. In an ongoing effort to support professionals such as yourself, the KACE Board would like to recognize those facilities that had achieved great success during their most recent survey. We are using these criteria of excellence: Zero Deficiencies, no G+ Deficiencies, no Substandard F Deficiencies, and less than 11 Deficiencies.

The members of KACE truly understand what an arduous process the survey can be. We can only hope to identify and honor those individuals who strive for excellence in long-term care. Clearly, you are one of these individuals, and your efforts to achieve excellence should not go unnoticed.

Please take a moment to share our sentiments with your staff and any other individuals who are committed to your vision. Congratulations again, to you and your team!

Lee Eaton

KACE Chairperson
